**Modern Christian Thought: The twentieth century** Jul 30 2022 This is the second edition of a widely acclaimed introduction to modern Christian thought (originally published by Prentice Hall in 2001). It presents full scholarly accounts of the major movements, thinkers, theologians and philosophers in the Christian tradition since the 18th century Enlightenment. It also includes solid historical

background and critical assessments. The book now covers the entire modern period in both Europe and the USA. It is the first text to include extensive treatment of modern Catholic thinkers, Evangelical thought and Black and Womanist theology.

**The Essentials of Christian Thought** Apr 26 2022 Or at least, such an outlook should unite Christians of all theological and church backgrounds. However, alternate visions of reality often infect and corrupt Christians' thinking. In *The Essentials of Christian Thought*, eminent theologian and church historian Roger Olson outlines the basic perspective on the world that all Christians, regardless of the place and time in which they are born, have historically held. This underlying metaphysic accords with all orthodox theologies, whether Calvinist or Arminian, Roman Catholic, Eastern Orthodox, or Protestant, but it separates Christianity from other religious and secular perspectives. It is, quite simply, the essential requirement of a Christian view of the world. Bold and incisive, *The Essentials of Christian Thought* will prompt thoughtful readers and students to more consciously appropriate the core of their faith, guarding against ideas that subtly but necessarily invite compromise.

**The First Thousand Years** Dec 31 2019 Describes the first 1,000 years of Christian history, from the early practices and beliefs through the conversion of Constantine as well as documenting its growth to communities in Ethiopia, Armenia, Central Asia, India and China.

*The Spirit of Early Christian Thought* Oct 01 2022 Many of the problems afflicting American education are the result of a critical shortage of qualified teachers in the classrooms. The teacher crisis is surprisingly resistant to reforms and is getting worse. This analysis of the causes underlying the crisis seeks to offer concrete, affordable proposals for effective reform. Vivian Troen and Katherine Boles, two experienced classroom teachers and education consultants, argue that because teachers are recruited from a pool of underqualified candidates, given inadequate preparation, and dropped into a culture of isolation without mentoring, support, or incentives for excellence, they are programmed to fail. Half quit within their first five years. Troen and Boles offer an alternative, a model of reform they call the Millennium School, which changes the way teachers work and improves the quality of their teaching. When teaching becomes a real profession, they contend, more academically able people will be drawn into it, colleges will be forced to improve the quality of their education, and better-prepared teachers will enter the classroom and improve the profession.

**Elements of Christian Thought** Aug 19 2021 In the spring of 2020, as the coronavirus pandemic disrupted classrooms around the world, teachers scrambled to convert their lectures and presentations into a format more conducive to online and distance learning. For Eugene Rogers, this meant transcribing as closely as possible the spoken lectures that have made his *Introduction to Christian Thought* course at UNC Greensboro, a course he has taught some forty times, justly famous. The result is this book: an insightful, winsome, and engaging introduction to the history of Christian thought by a teacher at the height of his craft. For Rogers, the history of Christian thought is the story of a language--it's "Christianese," if you will--that participants use to frame their agreements and their disagreements alike. From Anselm to Wyschogrod, Rogers introduces us to the most interesting speakers of Christianese and their importance, enabling us to both listen in on and take part in the living conversation about God's activity in and for our world.

**Aristotle and Early Christian Thought** Jul 06 2020 In studies of early Christian thought, ‘philosophy’ is often a synonym for ‘Platonism’, or at most for ‘Platonism and Stoicism’. Nevertheless, it was Aristotle who, from the sixth century AD to the Italian Renaissance, was the dominant Greek voice in Christian, Muslim and Jewish philosophy. *Aristotle and Early Christian Thought* is the first book in English to give a synoptic account of the slow appropriation of Aristotelian thought in the Christian world from the second to the sixth century. Concentrating on the great theological topics – creation, the soul, the Trinity, and Christology – it makes full use of modern scholarship on the Peripatetic tradition after Aristotle, explaining the significance of Neoplatonism as a mediator of Aristotelian logic. While stressing the fidelity of Christian thinkers to biblical presuppositions which were not shared by the Greek schools, it also describes their attempts to overcome the pagan objections to biblical teachings by a consistent use of Aristotelian principles, and it follows their application of these principles to matters which lay outside the purview of Aristotle himself. This volume offers a valuable study not only for students of Christian theology in its formative years, but also for anyone seeking an introduction to the thought of Aristotle and its developments in Late Antiquity.

**The Death of Christian Thought** Nov 29 2019 We are being lied to—and many professing Christians are buying the lies. Your eternal soul may be at stake. The Bible foretells a great deception and falling away from the faith in the latter days where absolute truth is discounted and moral relativism is elevated: Humanism! The clever deception of Humanism has completely taken over government, media and public education, and has infiltrated the visible church so strongly that many churches differ little in their beliefs and teachings from the humanist views of the world. This book will open your eyes to the rampant deception around us and help you correctly interpret the Word of God so you can stand strong in your faith to the end. It will help you open the eyes of family and friends who fall for the deception of Humanism, and point them to the eternal hope of Jesus Christ. It will teach you how to take your thoughts captive in obedience to Christ and live a life of joy, peace and obedience to God. You will see how God designed our brain, heart and conscience to work, and how the truth of the Bible and the Holy Spirit can help you live a life of joy and peace as the world continues to spin out of control. We destroy arguments and every lofty opinion raised against the knowledge of God, and take every thought captive to obey Christ – 2 Corinthians 10:5

**The History of Christian Thought** Aug 31 2022 A society with no grasp of its history is like a person without a memory. This is particularly true of the history of ideas. This book is an ideal introduction to the thinkers who have shaped Christian history and the culture of much of the world. Writing in a lively, accessible style, Jonathan Hill takes us on an enlightening journey from the first to the twenty first centuries. He shows us the key Christian thinkers through the ages - ranging from Irenaeus, Origen, Augustine and Aquinas through to Luther, Wesley, Kierkegaard and Barth - placing them in their historical context and assessing their contribution to the development of Christianity.

**Neoplatonism and Christian Thought** Oct 21 2021 In this volume, the relationships between two of the most vital currents in Western thought are examined by a group of nineteen internationally known specialists in a variety of disciplines—classics, patristics,

philosophy, theology, history of ideas, and literature. The contributing scholars discuss Neoplatonic theories about God, creation, man, and salvation, in relation to the ways in which they were adopted, adapted, or rejected by major Christian thinkers of five periods: Patristic, Later Greek and Byzantine, Medieval, Renaissance, and Modern. Contributors include G.-H. Allard, A. Hilary Armstrong, Elizabeth Bieman, Linos Benakis, Henry Blumenthal, Mary T. Clark, Norris Clarke, John Dillon, Cornelio Fabro, John N. Findlay, Maurice de Gandillac, Edward P. Mahoney, Bernard McGinn, Dominic J. O'Meara, John J. O'Meara, Jean Pépin, Mary Carman Rose, Henri-Dominique Saffrey, Charles B. Schmitt, and Gérard Verbeke.

*Christian Thought Revisited* Sep 19 2021 First published in 1989, *Christian Thought Revisited* offers an overview of three basic models of theology in Western Christianity. Gonzalez has updated the discussion on each model to include contemporary concerns.

*A New History of African Christian Thought* Mar 02 2020 David Tonghou Ngong offers a comprehensive view of African Christian thought that includes North Africa in antiquity as well as Sub-Saharan Africa from the period of colonial missionary activity to the present. Challenging conventional colonial divisions of Africa, *A New History of African Christian Thought* demonstrates that important continuities exist across the continent. Chapters written by specialists in African Christian thought reflect the issues—both ancient and modern—in which Christian Africa has impacted the shape of Christian belief from the beginning of the movement up to the present day.

*Transforming Christian Thought in the Visual Arts* Apr 14 2021 This volume explores how the visual arts are presenting and responding to Christian theology and demonstrates how modern and contemporary artists and artworks have actively engaged in conversation with Christianity. Modern intellectual enquiry has often been reluctant to engage theology as an enriching or useful form of visual analysis, but critics are increasingly revisiting religious narratives and Christian thought in pursuit of understanding our present-day visual culture. In this book an international group of contributors demonstrate how theology is often implicit within artworks and how, regardless of a viewer's personal faith, it can become implicit in a viewer's visual encounter. Their observations include deliberate juxtaposition of Christian symbols, imaginative play with theologies, the validation of non-confessional or secular public engagement, and inversions of biblical interpretation. Case studies such as an interactive Easter, glow-sticks as sacrament, and visualisation of the Bible's polyphonic voices enrich this discussion. Together, they call for a greater interpretative generosity and more nuance around theology's cultural contexts in the modern era. By engaging with theology, culture, and the visual art, this collection offers a fresh lens through which to see the interaction of religion and art. As such, it will be of great use to those working in Religion and the Arts, Visual Art, Material Religion, Theology, Aesthetics, and Cultural Studies.

*The Mosaic of Christian Belief* Jun 04 2020 In this second edition of Roger E. Olson's classic work, he thematically traces the contours of Christian belief down through the ages, revealing a pattern of both unity and diversity. He finds a consensus of teaching that is both

**The Routledge Companion to Early Christian Thought** Dec 23 2021 The shape and course which Christian thought has taken over its history is largely due to the contributions of individuals and communities in the second and third centuries. **The Unbound God** Mar 14 2021 This volume examines the prevalence, function, and socio-political effects of slavery discourse in the major theological formulations of the late third to early fifth centuries AD, arguably the most formative period of early Christian doctrine. The question the book poses is this: in what way did the Christian theologians of the third, fourth, and early fifth centuries appropriate the discourse of slavery in their theological formulations, and what could the effect of this appropriation have been for actual physical slaves? This fascinating study is crucial reading for anyone with an interest in early Christianity or Late Antiquity, and slavery more generally.

*Christian Antioch* May 16 2021 This book is a comprehensive survey of the history and, more particularly, of the thought of Antioch from the second to the eighth centuries of the Christian era. Dr Wallace-Hadrill traces the religious background of Antiochene Christianity and examines in detail aspects of its intellectual life: the exegesis of scripture, the interpretation of history, philosophy, and the doctrine of the nature of God as applied to an understanding of Christ and man's salvation. The community at Antioch stressed history and literalism, in self-conscious opposition to the tendency to allegorise that prevailed at Alexandria. While insisting on the divinity of Christ, they were equally adamant that no other doctrine should be allowed to compromise their central belief that Jesus was really human.

**Basic Christian Ethics** Feb 10 2021 "This treatise on Christian ethics is one of the most thoughtful and comprehensive presentations of the subject we have had in many years. The Great Tradition of Christian Thinking Oct 09 2020 A college education becomes truly meaningful when faith affects what happens in the classroom every day. According to David Dockery and Timothy George, it's only by stepping into the great tradition of Christian thinking that students can take hold of the true power of their education. They demonstrate that vibrant, world-changing Christianity is not anti-intellectual; instead, it assumes a long tradition of vigorous Christian thinking and a commitment to the integration of faith and scholarship as essential to the preparation of a next generation of leaders in the church, the academy, and the world. As the first volume in a new series, this book introduces an approach to the Christian tradition that is not simply historical overview, but will also help students engage with contemporary challenges to their faith in various academic fields. This reader-friendly guidebook shows how to address those challenges by reclaiming the best of the Christian intellectual tradition. With illustrations, reflection questions, and a list of resources for further study, this book is sure to be a timely tool in the hands of believing students in both Christian and secular universities. **The Oxford Handbook of Nineteenth-Century Christian Thought** Aug 07 2020 Offering a comprehensive assessment of the various ways in which Christian thought has found expression during the long 19th century, this handbook examines how it has been influenced by contemporaneous scientific, social, political, and cultural developments; and how it has in its turn impacted all areas of Western life and thought during this period. Its contributors accept that, contrary to earlier views, the 19th century was less a period of secularisation than one of dynamic, innovative, and diverse transformations of Christian thought, even if these were often expressed in new, and often controversial forms. Consequently, the volume starts with a section on 'paradigm shifts' underlying intellectual engagements with Christianity during the period, and proceeds to explorations of the role Christian thought played in various aspects of 19th-century society and culture.
