**Control of Pancreatic Beta Cell Function and Plasticity in Health and Diabetes** Oct 01 2019 Plasticity in insulin-producing cells ( $\beta$ -cells) of the pancreas is a major contributor to metabolic control. Targeted regeneration of pancreatic  $\beta$ -cells for the reversal of diabetes (by optimizing  $\beta$ -cells mass and proliferation to meet metabolic requirements and counter autoimmune response) is still a theoretical intervention. This monograph reviews the biology, ontogeny, capabilities, and present practical limitations of  $\beta$ -cell plasticity. Relevant biochemical pathways are described with the inclusion of information about how they change with aging, during pregnancy, and with diet. Readers will learn the following key aspects about  $\beta$ -cell plasticity: -current knowledge of pancreatic  $\beta$ -cells development, and how  $\beta$ -cell mass and proliferation change throughout the human lifespan -the mechanisms responsible for  $\beta$ -cell plasticity, based on animal models and clinical studies revealing environmental, epigenetic, endocrine and paracrine regulators -the therapeutic potential of resident stem cells within the pancreas / bone marrow and  $\beta$ -cell progenitors This monograph is essential reading for researchers interested in updated knowledge about the molecular and cellular biology of  $\beta$ -cells in the quest to find a reliable therapy for diabetes.

*Supplementary Report of the Urbanism Committee to the National Resources Committee* May 08 2020 "On August 9, 1937, the National Resources Committee submitted to the President its report on 'Our cities--their role in the national economy.' In the course of preparing this report a large volume of basic data and information was collected which could not then be included. The publication of these supplementary volumes has been undertaken to make such data and information available."--Vol. I, p. iii.

**English for Specific Purposes** Sep 04 2022 English for Specific Purposes offers the teacher a new perspective on this important field. The main concern is effective learning and how this can best be achieved in ESP courses. The authors discuss the evolution of ESP and its position today; the role of the ESP teacher; course design; syllabuses; materials; teaching methods, and evaluation procedures. It will be of interest to all teachers who are concerned with ESP. Those who are new to the field will find it a thorough, practical introduction while those with more extensive experience will find its approach both stimulating and innovative.

*Cores, Peripheries, and Globalization* Nov 01 2019 Deals with the intersection of issues associated with globalization and the dynamics of core-periphery relations. It places these debates in a large and vital context asking what the relations between cores and peripheries have in forming our vision of what constitutes globalization and what were and are its possible effects. In this sense the debate on globalization is framed as part of a larger and more crucial discourse that tries to account for the essential dynamics—economic, social, political and cultural—between metropolitan areas and their peripheries.

**Hasidism** Sep 11 2020 The first comprehensive history of the pietistic movement that shaped modern Judaism This is the first comprehensive history of the pietistic movement that shaped modern Judaism. The book's unique blend of intellectual, religious, and social history offers perspectives on the movement's leaders as well as its followers, and demonstrates that, far from being a throwback to the Middle Ages, Hasidism is a product of modernity that forged its identity as a radical alternative to the secular world. Hasidism originated in southeastern Poland, in mystical circles centered on the figure of Israel Ba'al Shem Tov, but it was only after his death in 1760 that a movement began to spread. Challenging the notion that Hasidism ceased to be a creative movement after the eighteenth century, this book argues that its first golden age was in the nineteenth century, when it conquered new territory, won a mass following, and became a mainstay of Jewish Orthodoxy. World War I, the Russian Revolution, and the Holocaust decimated eastern European Hasidism. But following World War II, the movement enjoyed a second golden age, growing exponentially. Today, it is witnessing a remarkable renaissance in Israel, the United States, and other countries around the world. Written by an international team of scholars, Hasidism is a must-read for anyone seeking to understand this vibrant and influential modern Jewish movement.

**Official Register of the Officers and Cadets** Feb 03 2020

**Marxist-Leninist "scientific Atheism" and the Study of Religion and Atheism in the USSR** Apr 18 2021 Since its founding by Jacques Waardenburg in 1971, Religion and Reason has been a leading forum for contributions on theories, theoretical issues and agendas related to the phenomenon and the study of religion. Topics include (among others) category formation, comparison, ethnophilosophy, hermeneutics, methodology, myth, phenomenology, philosophy of science, scientific atheism, structuralism, and theories of religion. From time to time the series publishes volumes that map the state of the art and the history of the discipline.

[A General History of Chinese Art](#) Oct 05 2022 This volume investigates the artistic development during the Qing Dynasty, the last of imperial Chinese dynasties, and shows the importance of opera and playwriting during this time period. Further analysis is dedicated to the development of scroll painting and the revival of calligraphy and seal carving. A General History of Chinese Art comprises six volumes with a total of nine parts spanning from the Prehistoric Era until the 3rd year of Xuantong during the Qing Dynasty (1911). The work provides a comprehensive compilation of in-depth studies of the development of art throughout the subsequent reign of Chinese dynasties and explores the emergence of a wide range of artistic categories such as but not limited to music, dance, acrobatics, singing, story telling, painting, calligraphy, sculpture, architecture, and crafts. Unlike previous reference books, A General History of Chinese Art offers a broader overview of the notion of Chinese art by asserting a more diverse and less material understanding of arts, as has often been the case in Western scholarship.

*The Practice at Law* Dec 15 2020

**Cross and Tapper on Evidence** Feb 14 2021 Cross & Tapper continues to provide exceptionally clear and detailed coverage of the modern law of evidence, with an element of international comparison. The foremost authority in the area, it is a true classic of legal literature.

**Sorghum** Apr 06 2020 The newest addition to the Wiley Series in Crop Science, this book is an all-in-one guide to sorghum, one of the eight major grain crops grown worldwide. While presenting information in adequate detail for scientists, it is also an invaluable reference for growers, processors, and grain merchants.

**The Origins of the Scottish Reformation** Aug 23 2021 The Scottish Reformation of 1560 is one of the most controversial events in Scottish history, and a turning point in the history of Britain and Europe. Yet its origins remain mysterious, buried under competing Catholic and Protestant versions of the story. Drawing on fresh research and recent scholarship, this book provides the first full narrative of the question. Going beyond the heroic certainties of John Knox, this book recaptures the lived experience of the early Reformation: a bewildering, dangerous and exhilarating period in which Scottish (and British) identity was remade.

**The Cold War and its Origins, 1917-1960** Nov 06 2022 This book, first published in 1961, is an analysis of the great struggle of the twentieth century, the Cold War. It carefully examines the conflict's origins in the Russian Revolution of 1917, and follows the thread of antagonism between west and east all the way up to 1960. These were the key years of the Cold War, when it seemed that the prospect of nuclear confrontation was a real one, and this book offers a close reading of the main events of those years. This volume concentrates on the Cold War in the East, and Volume One focuses on the European theatre.

**Constitutional History of Hawaii** Apr 30 2022

**Medieval Oral Literature** Sep 23 2021 Although problems of orality have been much discussed by medievalists, there is to date no comprehensive handbook on this topic. In 'Medieval Oral Literature' in the 'De Gruyter Lexikon' series, an international team of scholars has provided an in-depth discussion both of theoretical issues and various poetic traditions and genres. In addition to the core areas of the European Middle Ages, Russian, Hebrew, Arabic, Persian and Turkish traditions have also been included.

**A History of the Early Islamic Law of Property** Mar 30 2022 The present book is devoted to an analysis of positive solutions concerning matters related to civil liability, certain kinds of sale that would evolve into agency and some forms of partnership, and the prohibition of rib?.

**A History of Satellite Reconnaissance** Jun 01 2022

**Casebook on Contract Law** Jul 22 2021 'Casebook on Contract Law' provides students with a comprehensive selection of the cases most likely to be encountered on contract law courses and is specifically designed to meet their needs.

**A Global History of Consumer Co-operation since 1850** Nov 25 2021 With contributions from over 30 scholars, A Global History of Consumer Co-operation surveys the origins and development of the consumer co-operative movement throughout the world from the mid-nineteenth century until the present day.

**The Handbook of Rationality** Mar 06 2020 The first reference on rationality that integrates accounts from psychology and philosophy, covering descriptive and normative theories from both disciplines. Both analytic philosophy and cognitive psychology have made dramatic advances in understanding rationality, but there has been little interaction between the disciplines. This volume offers the first integrated overview of the state of the art in the psychology and philosophy of rationality. Written by leading experts from both disciplines, The Handbook of Rationality covers the main normative and descriptive theories of rationality—how people ought to think, how they actually think, and why we often deviate from what we can call rational. It also offers insights from other fields such as artificial intelligence, economics, the social sciences, and cognitive neuroscience. The Handbook proposes a novel classification system for researchers in human rationality, and it creates new connections between rationality research in philosophy, psychology, and other disciplines. Following the basic distinction between theoretical and practical rationality, the book first considers the theoretical side, including normative and descriptive theories of logical, probabilistic, causal, and defeasible reasoning. It then turns to the practical side, discussing topics such as decision making, bounded rationality, game theory, deontic and legal reasoning, and the relation between rationality and morality. Finally, it covers topics that arise in both theoretical and practical rationality, including visual and spatial thinking, scientific rationality, how children learn to reason rationally, and the connection between intelligence and rationality.

**A History of the English Language** Aug 03 2022 The English language in its complex shapes and forms changes fast. This thoroughly revised edition has been refreshed with current examples of change and has been updated regarding archeological research. Most suggestions brought up by users and reviewers have been incorporated, for instance, a family tree for Germanic has been added, Celtic influence is highlighted much more, there is more on the origin of Chancery English, and internal and external change are discussed in much greater detail. The philosophy of the revised book remains the same with an emphasis on the linguistic history and on using authentic texts. My audience remains undergraduates (and beginning graduates). The goals of the class and the book are to come to recognize English from various time periods, to be able to read each stage with a glossary, to get an understanding of typical language change, internal and external, and to understand something about language typology through the emphasis on the change from synthetic to analytic. This book has a companion website: <http://dx.doi.org/10.1075/z.183.website>

**An account of Askern and its mineral springs; together with a sketch of the natural history, and a brief topography, of the immediate neighbourhood** Jun 28 2019

**Forensic Child and Adolescent Mental Health** Jun 08 2020 An overview of forensic child and adolescent mental health for professionals in mental health, social care, education, law and policy.

**Cross & Tapper on Evidence** Oct 25 2021 Cross & Tapper continues to provide exceptionally clear and detailed coverage of the modern law of evidence, with an element of international comparison. The foremost authority in the area, it is a true classic of legal literature.

**Baltimore, Slavery, and Constitutional History** Jul 02 2022

**Handbook of Interpersonal Communication** Jul 30 2019 Interpersonal communication (IC) is a continuous game between the interacting interactants. It is a give and take - a continuous, dynamic flow that is linguistically realized as discourse as an on-going sequence of interactants' moves. Interpersonal communication is produced and interpreted by acting linguistically, and this makes it a fascinating research area. The handbook, Interpersonal Communication, examines how interactants manage to exchange facts, ideas, views, opinions, beliefs, emotion, etc. by using the linguistic systems and the resources they offer. In interpersonal communication, the fine-tuning of individuals' use of the linguistic resources is continuously probed. The language used in interpersonal communication enhances social relations between interactants and keeps the interaction on the normal track. When interaction gets off the track, linguistic miscommunication may also destroy social relationships. This volume is essentially concerned with this fine-tuning in discourse, and how it is achieved among various interactant groups. The volume departs from the following fundamental questions: How do interpersonal relations manifest themselves in language? What is the role of language in developing and maintaining relationships in interpersonal communication? What types of problems occur in interpersonal communication and what kind of strategies and means are used to solve them? How does linguistically realized interpersonal communication interact with other semiotic modes? Interpersonal communication is seen and researched from the perspective of what is being said or written, and how it is realized in various generic forms. The current research also gives attention to other semiotic modes which interact with the linguistic modes. It is not just the social roles of interactants in groups, the possible media available, the non-verbal behaviors, the varying contextual frames for communication, but primarily the actual linguistic manifestations that we need to focus upon when we want to have a full picture of what is going on in human interpersonal communication. It is this linguistic perspective that the volume aims to present to all researchers interested in IC. The volume offers an overview of the theories, methods, tools, and resources of linguistically-oriented approaches, e.g. from the fields of linguistics, social psychology, sociology, and semiotics, for the purpose of integration and further development of the interests in IC., Topics e.g.: Orientation to interaction as primarily linguistically realized processes Expertise on theorizing and analyzing cultural and situational contexts where linguistic processes are realized Expertise on handling language corpora Expertise on theorizing and analyzing interaction types as genres Orientation to an integrated view of linguistic and non-linguistic participant activities and of how interactants generate meanings and interact with space Expertise on researching the management of the linguistic flow in interaction and its successfulness.

**Promoting Trait Emotional Intelligence in Leadership and Education** Jan 28 2022 Humans have the capacity to detect and experience a wide spectrum of emotions in everyday life. However, the ability to identify and interpret those emotions is not a skill commonly held by all individuals, despite the significance of this skill. Promoting Trait Emotional Intelligence in Leadership and Education provides the latest information on enabling educators and leaders across industries to monitor the emotions of others as well as their own in order to interact effectively with others. Focusing on best practices and methods for training those in education and leadership positions, this publication is essential to the research needs of education administrators, professors, managers, and

professionals in various disciplines.

**The Origins of the First World War** Feb 26 2022 James Joll's study is not simply another narrative, retracing the powder trail that was finally ignited at Sarajevo. It is an ambitious and wide-ranging analysis of the historical forces at work in the Europe of 1914, and the very different ways in which historians have subsequently attempted to understand them. The importance of the theme, the breadth and sympathy of James Joll's scholarship, and the clarity of his exposition, have all contributed to the spectacular success of the book since its first appearance in 1984. Revised by Gordon Martel, this new 3rd edition accommodates recent research and an expanded further reading section.

**Goal Invention: The Mental Therapy, Sport, and Hobby** Oct 13 2020 A reader interactive hardcover textbook that instructs The Cycle Case Number Goal Invention System, a system which promotes goal invention. Study the system chapter by chapter and perform the mental therapy, sport, and hobby of goal invention, as you become the co-author of this textbook. This reader interactive textbook, Goal Invention: The Mental Therapy, Sport, and Hobby, is structured in two halves. The first half of this textbook instructs The Cycle Case Number Goal Invention System. The second half of the textbook contains the reader interactive Goal Invention Workbook entitled "The 10-Cycle Goal Invention Journey". The 10-Cycle Goal Invention Journey is the preformatted workbook section for you to perform goal invention as a mental therapy, sport, and hobby, while using the systematic procedures of The Cycle Case Number Goal Invention System. In Goal Invention: the Mental Therapy, Sport, and Hobby, you perform the cycle case number goal invention system and become the Author of this book. You are The Cycle Case Number Goal Invention System Author

**Medical Aspects of Flying Motivation** Aug 11 2020

*The Oxford Handbook of Transformations of the State* Nov 13 2020 This Handbook offers a comprehensive treatment of transformations of the state, from its origins in different parts of the world and different time periods to its transformations since World War II in the advanced industrial countries, the post-Communist world, and the Global South. Leading experts in their fields, from Europe and North America, discuss conceptualizations and theories of the state and the transformations of the state in its engagement with a changing international environment as well as with changing domestic economic, social, and political challenges. The Handbook covers different types of states in the Global South (from failed to predatory, rentier and developmental), in different kinds of advanced industrial political economies (corporatist, statist, liberal, import substitution industrialization), and in various post-Communist countries (Russia, China, successor states to the USSR, and Eastern Europe). It also addresses crucial challenges in different areas of state intervention, from security to financial regulation, migration, welfare states, democratization and quality of democracy, ethno-nationalism, and human development. The volume makes a compelling case that far from losing its relevance in the face of globalization, the state remains a key actor in all areas of social and economic life, changing its areas of intervention, its modes of operation, and its structures in adaption to new international and domestic challenges.

*Research Handbook on Critical Legal Theory* Jan 04 2020 Critical theory, characteristically linked with the politics of theoretical engagement, covers the manifold of the connections between theory and praxis. This thought-provoking Research Handbook captures the broad range of those connections as far as legal thought is concerned and retains an emphasis both on the politics of theory, and on the notion of theoretical engagement. The first part examines the question of definition and tracks the origins and development of critical legal theory along its European and North American trajectories. The second part looks at the thematic connections between the development of legal theory and other currents of critical thought such as; Feminism, Marxism, Critical Race Theory, varieties of post-modernism, as well as the various 'turns' (ethical, aesthetic, political) of critical legal theory. The third and final part explores particular fields of law, addressing the question how the field has been shaped by critical legal theory, or what critical approaches reveal about the field, with the clear focus on opportunities for social transformation.

*The Cambridge History of the First World War. 3 Volume Hardback Set* Jul 10 2020 A definitive, transnational account of the military, political and cultural history of the First World War.

**Handbook on East Asian Economic Integration** Aug 30 2019 This comprehensive Handbook provides an in-depth analysis of the nature of East Asian economic integration alongside thoughtful insights into contemporary issues, such as agricultural development, structural transformation and East Asian trade, alongside skills and human capital development policies of ASEAN. Contributors also provide detailed explanations on trade, poverty and Aid for Trade, institutional reforms, regulatory reform and measuring integration.
