Managing Salinization Sep 03 2022 Salinization of soils is a major threat to irrigated agriculture and counteracts the targets of costly public infrastructure investments. In this study, salinization is regarded as the outcome of an institutional arrangement which impedes the effective implementation of well-known and well-established control measures be they technical, managerial or economic. In public irrigation systems neither the management units nor the farmers are offered any incentives towards the control of high groundwater levels and salinization if the management units are embedded in a highly centralized non-market institutional setting. The author answers the question under which conditions management units and irrigators are active in halting and reversing the process of salinization.

Computerworld Jun 27 2019 For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

VI Latin American Congress on Biomedical Engineering CLAIB 2014, Paraná, Argentina 29, 30 & 31 October 2014 Mar 29 2022 This volume presents the proceedings of the CLAIB 2014, held in Paraná, Entre Ríos, Argentina 29, 30 & 31 October 2014. The proceedings, presented by the Regional Council of Biomedical Engineering for Latin America (CORAL) offer research findings, experiences and activities between institutions and universities to develop Bioengineering, Biomedical Engineering and related sciences. The conferences of the American Congress of Biomedical Engineering are sponsored by the International Federation for Medical and Biological Engineering (IFMBE), Society for Engineering in Biology and Medicine (EMBS) and the Pan American Health Organization (PAHO), among other organizations and international agencies and bringing together scientists, academics and biomedical engineers in Latin America and other continents in an environment conducive to exchange and professional growth. The Topics include: - Bioinformatics and Computational Biology - Bioinstrumentation; Sensors, Micro and Nano Technologies - Biomaterials, Tissue Engineering and Artificial Organs - Biomechanics, Robotics and Motion Analysis - Biomedical Images and Image Processing - Biomedical Signal Processing - Clinical Engineering and Electromedicine - Computer and Medical Informatics - Health and home care, telemedicine - Modeling and Simulation - Radiobiology, Radiation and Medical Physics - Rehabilitation Engineering and Prosthetics - Technology, Education and Innovation

Cardiovascular Disease May 07 2020 The two volumes of Cardiovascular Disease: Methods and Protocols provide comprehensive coverage of both basic and advanced approaches to the study and characterization of cardiovascular disease. In Volume 1: Genetics and Volume 2: Molecular Medicine, highly experienced cardiovascular researchers describe in detail the most important techniques in molecular medicine that are employed in genetic, molecular, cellular, structural, and physiological studies of cardiovascular disease.

The Complete Guide to Fujifilm's X-Pro2 (B&W Edition) Aug 22 2021 If you're uncertain in any way about even one thing your XPro2 does, then save time and money and grab this book. This is EVERYTHING X-Pro2 explained in easy to understand language! It is the Manual on Steroids and much more... In it, I assume you are a photographer, so I don't dive in to the basics of photography (except in an Appendix). Everything comes with clear tutorials and examples. As a bonus (hey! I'm trying to entice you to buy my book!), I give everyone who buys my book a PDF copy of my other eBook "Mastering Flash with Fujifilm X Cameras" - value \$9.95 value. Find out how in the book. But Wait... There's also an XLS spreadsheet listing all camera settings with a brief explanation of each, my own recommendations, and space to note your own settings.

A Guide to American Trade Catalogs, 1744-1900 Sep 30 2019 Invaluable listing of rare catalogs selling cars, beekeeper's equipment, clocks, firearms, livestock, clothes, toys, more. Cites catalog's location, size, more.

Sybase 15.0 Replication Server Administration Nov 24 2021 Sybase 15 Replication Server Administration addresses the needs of a wide range of database professionals, explaining to both beginners and experts how to administer Sybase's newest Replication Server release. This book examines all the knowledge, background information, and conceptual frameworks needed in order to get started on installing and administering Sybase Replication Server, and explores the world of contemporary cross-platform compatible Sybase Replication Server administration. Learn how to replicate business-critical data; configure database connections and routes; manage replicated tables, stored procedures, and subscriptions; set up a warm standby system; monitor replication performance and tune the database system; provide up-to-the-minute high availability of data; recover from failures and prevent data loss; troubleshoot the replication system.

The Complete Guide to Fujifilm's X-H1 (B&W Edition) Aug 10 2020 The X-H1 in plain English! Written for Fujifilm's outstanding X-H1 camera, this is This is EVERYTHING X-H1 explained in easy to understand language! It is the Manual on Steroids and much more... In it, I assume you are a photographer, so I don't dive in to the basics of photography (except in an Appendix). Everything comes with clear tutorials and examples. So if you're uncertain about anything your X-H1 does, grab this book! It's packed with clear tutorials and examples, with over 900 tips, tricks, and tweaks to help you master photography with your X-H1.

History of Nordic Computing 4 Jul 29 2019 This book constitutes the refereed post-proceedings of the 4th IFIP WG 9.7 Conference on the History of Nordic Computing, HiNC 4, held in Copenhagen, Denmark, in August 2014. The 37 revised full papers were carefully reviewed and selected for inclusion in this volume. The papers focus on innovative ICT milestones that transformed the nordic societies and on the new ideas, systems and solutions that helped

creating the welfare societies of today, in particular solutions and systems for public services, e.g., tax, social benefits, health care and education; solutions and systems for the infrastructure of the society, e.g., banking, insurance, telephones, transport and energy supply; and technologies and IT policies behind the major IT milestones, e.g., user centric innovation, programming techniques and IT ethics. They are organized in topical sections on IT policy, infrastructure, public services, private services, telesystems, health care, IT in banking, transport and IT technology.

PC Mag Jun 19 2021 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Handbook of Isolation and Characterization of Impurities in Pharmaceuticals Apr 05 2020 The United States Food and Drug Administration (FDA) and other regulatory bodies around the world require that impurities in drug substance and drug product levels recommended by the International Conference on Harmonisation (ICH) be isolated and characterized. Identifying process-related impurities and degradation products also helps us to understand the production of impurities and assists in defining degradation mechanisms. When this process is performed at an early stage, there is ample time to address various aspects of drug development to prevent or control the production of impurities and degradation products well before the regulatory filing and thus assure production of a high-quality drug product. This book, therefore, has been designed to meet the need for a reference text on the complex process of isolation and characterization of process-related (synthesis and formulation) impurities and degradation products to meet critical regulatory requirements. It's objective is to provide guidance on isolating and characterizing impurities of pharmaceuticals such as drug candidates, drug substances, and drug products. The book outlines impurity identification processes and will be a key resource document for impurity analysis, isolation/synthesis, and characterization.

- Provides valuable information on isolation and characterization of impurities. - Gives a regulatory perspective on the subject. - Describes various considerations involved in meeting regulatory requirements. - Discusses various sources of impurities and degradation products.

Imaging Cerebrovascular Reactivity: Physiology, Physics and Therapy Dec 02 2019 Topic Editor Prof. James Duffin contributed to the development of an automated end-tidal targeting device, RespirAct™ and is employed by Thornhill Medical Inc. (Toronto, Canada). RespirAct™ is currently a non-commercial research tool assembled and made available by TMI to research institutions to enable CVR studies. All other Topic Editors declare no competing interests with regards to the Research Topic subject.

Operator's, Organizational, Direct Support, and General Support Maintenance Manual Feb 25 2022

Understanding Psychological Testing in Children Nov 05 2022 There is a considerable amount of interest within pediatrics and primary health care that is currently being directed toward the behavioral and emotional problems of childhood. Traditionally, these areas have been emphasized by child psychiatrists, child psychologists, and psychiatric social workers. Now, however, the detection and, in some cases, the assessment and treatment of children with these types of disturbances fall within the province of primary child health care professionals. Even when the child psychiatrist or child psychologist provides the primary mental health treatment for the child, specialists such as pediatricians, family physicians, pediatric nurses, pediatric nurse practitioners, and speech therapists remain instrumental in support of the ongoing psychotherapeutic process as providers of some other aspect of total health care to the child and family. For these pediatricians, family physicians, and other nonpsychologist primary health care providers, it is essential to acquire an understanding and effective working knowledge of important psychological information and concepts to utilize within their own framework and professional responsibilities. In order that this may be accomplished, these professionals with limited backgrounds in psychology must better understand how psychologists themselves assess children and how they derive the conclusions reflected in the statements and reports that are shared with members of their own and other disciplines. In short, nonpsychologists must become substantially more familiar with psychological assessment, particularly with psychological testing and the subsequent reporting of results.

Patch-Based Techniques in Medical Imaging Sep 10 2020 This book constitutes the thoroughly refereed post-workshop proceedings of the First International Workshop on Patch-based Techniques in Medical Images, Patch-MI 2015, which was held in conjunction with MICCAI 2015, in Munich, Germany, in October 2015. The 25 full papers presented in this volume were carefully reviewed and selected from 35 submissions. The topics covered are such as image segmentation of anatomical structures or lesions; image enhancement; computer-aided prognostic and diagnostic; multi-modality fusion; mono and multi modal image synthesis; image retrieval; dynamic, functional physiologic and anatomic imaging; super-pixel/voxel in medical image analysis; sparse dictionary learning and sparse coding; analysis of 2D, 2D+t, 3D, 3D+t, 4D, and 4D+t data.

Direct Support, General Support, and Depot Maintenance Manual Feb 02 2020

Case Studies in Participatory Irrigation Management Mar 05 2020 "Water is a vital element for agricultural production and for economic development in general. However, the spatial and temporal distribution of water in Mexico restrains its use. Because of this distribution, it has been necessary to build a large infrastructure to capture, store, and allot this element among water users." Around the world, countries that once promoted more government involvement in irrigation management are adopting new policies that do just the opposite, creating incentives for farmers to take over the management of operations and maintenance, while government agencies focus on improving the management of water at the main system level. Is this just another management fad; or will the pendulum that is now swinging toward greater management control by farmers soon swing back the other way, toward greater state control? This volume reports on four countries where the state's role in irrigation management has undergone fundamental change and where the result has been a much greater management role for farmers. These studies address the political antecedents of participatory irrigation management (PIM) policies, the process of implementing the policies, and the second-generation challenges of sustaining PIM. These experiences will prove useful to policymakers and irrigation professionals who are facing similar challenges in their own countries.

The Complete Guide to Fujifilm's X-T3 (B&W Edition) Dec 14 2020 The X-T3 in plain English! Written for Fujifilm's outstanding X-T3 camera, this is This is EVERYTHING X-T3 explained in easy to understand language! It is the Manual on Steroids and much more...Everything comes with clear tutorials and examples. So if you're uncertain about anything your X-T3 does, grab this book! It's packed with clear tutorials and examples, with over 900 tips, tricks, and tweaks to help you master photography with your X-T3. Get the most from your investment - Learn about the wonders of digital imaging and improve your creative eye at the same time!

Human-Computer Interaction Jan 27 2022 The theme of the 1997 INTERACT conference, 'Discovering New Worlds of HCI', signals major changes that are taking place with the expansion of new technologies into fresh areas of work and leisure throughout the world and new pervasive, powerful systems based on multimedia and the internet. HCI has a vital role to play in these new worlds, to ensure that people using the new technologies are empowered rather than subjugated to the technology that they increasingly have to use. In addition, outcomes from HCI research studies over the past 20 years are now finding their way into many organisations and helping to improve and enhance work practices. These factors have strongly influenced the INTERACT'97 Committee when creating the conference programme, with the result that, besides the more traditional HCI research and education focus found in previous INTERACT conferences, one strand of the 1997 conference has been devoted to industry and another to multimedia. The growth in the IFIP TC13 committee itself reflects the expansion of HCI into new worlds. Membership of IFIP TC13 has risen to now include representatives of 24 IFIP member country societies from many parts of the world. In 1997, IFIP TC13 breaks new ground by holding its sixth INTERACT conference in the Asia-Pacific region. This is a significant departure from previous INTERACT conferences, that were all held in Europe, and is especially important for the Asia-Pacific region, as HCI expands beyond its traditional base.

The Complete Guide to Fujifilm's X-t2 (B&W Edition) Jan 03 2020 *** Listed as ""Mirrorless Camera Manuals whose books you'll actually enjoy reading"" *** If you're uncertain in any way about even one thing your XT2 does, then save time and money and grab this book. This is EVERYTHING X-T2 explained in easy to understand language! It is the Manual on Steroids and much more... This full-color ebook: * Covers every mode, menu, button,

function, and socket. * Explains the new Flash modes, including wireless flash. * Includes all my camera settings and an explanation of why on earth I do it that way. * Covers every essential of shooting - like: ISO, Focus, WB, Metering, flash modes - and the more esoteric ones too. * Explains how and why to customize all the buttons and menus. * Has a great tutorial to help you master the ins and outs of RAW. * Explains why all glass (Fuji lenses) are not born equal. * Includes a 22 page Condensed Guide to the Basics of modern digital photography. Valuable bonuses are included as well!

International Conference on Materials, Architecture and Engineering Technology (ICMAET 2013) May 31 2022 The main objective of ICMAET 2013 is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Materials, Architecture, Agriculture Science, Environment Engineering and Engineering Technology. This conference provides opportunities for the delegates to exchange new ideas and experiences face to face, to establish business or research relations and to find global partners for future collaboration. ICMAET 2013 received over 350 submissions which were all reviewed by at least two reviewers. As a result of our highly selective review process about 130 papers have been retained for inclusion in the ICMAET 2013 proceedings, less than 40% of the submitted papers. The program of ICMAET 2013 consists of invited sessions, and technical workshops and discussions covering a wide range of topics. This rich program provides all attendees with the opportunities to meet and interact with one another. We hope your experience is a fruitful and long lasting one. With your support and participation, the conference will continue its success for a long time. The conference is supported by many universities and research institutes. Many professors play an important role in the successful holding of the conference, so we would like to take this opportunity to express our sincere gratitude and highest respects to them. They have worked very hard in reviewing papers and making valuable suggestions for the authors to improve their work. We also would like to express our gratitude to the external reviewers, for providing extra help in the review process, and to the authors for contributing their research result to the conference. Special thanks go to our publisher DEStech Publication

Decisions of the Public Utilities Commission of the State of California Sep 22 2021

Between Court and Confessional Nov 12 2020 Between Court and Confessional explores the lives of Spanish inquisitors, closely examining the careers and writings of five sixteenth- and seventeenth-century inquisitors. Kimberly Lynn considers what shaped particular inquisitors, what kinds of official experience each accumulated, and to what ends each directed his acquired knowledge and experience. The case studies examine the complex interplay of careerism and ideological commitments evident in inquisitorial activities. Whereas many studies of the Spanish Inquisition tend to depict inquisitors as faceless and interchangeable, Lynn probes the lives of individual inquisitors to show how inquisitors' operations in their social, political, religious and intellectual worlds set the Inquisition in motion. By focusing on specific individuals, this study explains how the theory and regulations of the Inquisition were rooted in local conditions, particular disputes and individual experiences.

Nuclear Safety Oct 24 2021

Karate - The Hidden Secrets Jul 21 2021 This book details the "problems" with Karate as it is taught today. Unlike most other books of this genre, it details exactly how to remedy these problems. Russell Stutely takes you on a step by step guide to really make your Martial Arts work.

DSI--Date Scene Investigation Aug 02 2022 Are you a victim of a crime of the heart? Is your relationship an unsolved mystery? It's time to analyze the Dating DNA. In this hilarious and helpful handbook, best-selling author Ian Kerner introduces us to the DSI team, a top-secret unit within the FBI (that's the Federal Bureau of Intimacy) whose sole mission is to investigate dating dilemmas and equip you with the skills you need so you're never again a dating victim. Through humorous and engaging case studies, you'll read about boyfriends who might be gay, gamers who won't step up to the plate, and wimps who won't go down for the count. You'll meet Dating DUPEs (Desperately Under Pressure to Evaluate) and their antagonistic ARSEs (Anti-Relationship Suspect Examinees). You'll gain unprecedented access to previously classified relationship rap sheets: detailed reports that reveal interpersonal infractions, mating misdemeanors, and flirtatious felonies. You'll boldly go where no civilian has gone before as we apply the latest forensic tools to decipher complex dating data: From testing for SPARK (Sexual Potential and Romantic Kinship), to consulting with undercover agents in the MBU (Missing Boyfriends Unit), Kerner ventures above the law and beneath the covers. Because in the end . . . the love life you save may be your own.
