*Greek Tragedies 1* Dec 31 2019 Greek Tragedies, Volume I contains Aeschylus's "Agamemnon," translated by Richmond Lattimore; Aeschylus's "Prometheus Bound," translated by David Grene; Sophocles's "Oedipus the King," translated by David Grene; Sophocles's "Antigone," translated by Elizabeth Wyckoff; and Euripides's "Hippolytus," translated by David Grene. Sixty years ago, the University of Chicago Press undertook a momentous project: a new translation of the Greek tragedies that would be the ultimate resource for teachers, students, and readers. They succeeded. Under the expert management of eminent classicists David Grene and Richmond Lattimore, those translations combined accuracy, poetic immediacy, and clarity of presentation to render the surviving masterpieces of Aeschylus, Sophocles, and Euripides in an English so lively and compelling that they remain the standard translations. Today, Chicago is taking pains to ensure that our Greek tragedies remain the leading English-language versions throughout the twenty-first century. In this highly anticipated third edition, Mark Griffith and Glenn W. Most have carefully updated the translations to bring them even closer to the ancient Greek while retaining the vibrancy for which our English versions are famous. This edition also includes brand-new translations of Euripides' Medea, The Children of Heracles, Andromache, and Iphigenia among the Taurians, fragments of lost plays by Aeschylus, and the surviving portion of Sophocles's satyr-drama The Trackers. New introductions for each play offer essential information about its first production, plot, and reception in antiquity and beyond. In addition, each volume includes an introduction to the life and work of its tragedian, as well as notes addressing textual uncertainties and a glossary of names and places mentioned in the plays. In addition to the new content, the volumes have been reorganized both within and between volumes to reflect the most up-to-date scholarship on the order in which the plays were originally written. The result is a set of handsome paperbacks destined to introduce new generations of readers to these foundational works of Western drama, art, and life.

Science Focus 2 Aug 19 2021 The Science Focus Second Edition is the complete science package for the teaching of the New South Wales Stage 4 and 5 Science Syllabus. The Science Focus Second Edition package retains the identified strengths of the highly successful First Edition

and includes a number of new and exciting features, improvements and components. The student book includes: Chapter opening pages which include the key prescribed focus area for the chapter and a clear distinction between essential and additional content; Updated and revised content, photos, illustrations and 'science clip' boxes in a format that is easy to read and follow; Unit questions under headings that are structured in a hierarchical progression using Bloom's Revised Taxonomy; Additional questions which include research, creative writing, investigations and internet activities; Practical activities at the end of each unit allowing teachers to choose when to do practical work.; Student CD which contains an electronic version of the student book.

**Grandad Mandela** Jul 30 2022 "...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad – the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

**Beard on Pasta** Mar 26 2022 Classic pasta dishes from America's 1st and most beloved master chef Whether you're entertaining guests or simply cooking for 1, pasta is sure to delight. The ultimate comfort food, it can be found in the cuisines of nearly every culture. James Beard, heralded by the New York Times as "the dean of American cookery" enriches our understanding of this culinary staple with his collection of recipes and commentary on store-bought versus homemade pasta, wine pairings, choosing the perfect cheese, and other insights. From familiar spaghetti entrées to more adventurous fare, such as udon noodle soup and spätzle, Beard brings meals from all over the globe into the home chef's kitchen. Under the guidance of America's original gastronomic genius, the basic noodle is elevated in dishes such as basil lasagna, Portuguese fish stew with orzo, and cheddar angel hair soufflé. Beard on Pasta is full of easy-to-follow recipes, along with tips on preparation, sauce, and serving that you'll be eager to try. This comprehensive cookbook provides all the tools you need to make delectable and unforgettable pasta for any occasion.

**Love Joy Peace Kindness Patience Goodness Faithfulness Gentleness Self Control** Oct 28 2019 This is a Beautiful Fruits of the Spirit Planner. This Weekly 2020 Planner is a great way to plan out your 2020 Year. 12 Month Planning Pages for jotting down commitments. Weekly

Planning Pages to schedule in activities for each day of the week. Blank notes pages in the back to use as you would like. 6 x 9 size is great for taking along in a bag or purse. 102 Pages with a glossy cover.

**Gene Control, Second Edition** Mar 14 2021 The new edition of Gene Control has been updated to include significant advances in the roles of the epigenome and regulatory RNAs in gene regulation. The chapter structure remains the same: the first part consists of pairs of chapters that explain the mechanisms involved and how they regulate gene expression, and the second part deals with specific biological processes (including diseases) and how they are controlled by genes. Coverage of methodology has been strengthened by the inclusion more explanation and diagrams. The significant revision and updating will allow Gene Control to continue to be of value to students, scientists and clinicians interested in the topic of gene control.

**The Grace Walk Experience** Aug 31 2022 For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now The Grace Walk Experience workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

**Rosh Rapid Review: General Surgery Rotation Exam** Oct 21 2021 This is book 2 of 7 of the Rapid Review for the Rotation Exam series. Developed by the same Rosh Review team who brought you the popular Rosh Review Qbank. The Rapid Review for the General Surgery Rotation Exam details every national content blueprint topic into a "what you need to know" for your General Surgery Rotation Exam. This book provides a high-yield review of the pathophysiology, diagnosis, lab analysis, treatments and more. Includes beautifully designed color teaching images for visual learners. Organized so you can add your own notes. Easy to take with you to class, a cafe, or library. The content in the Rapid Review book series is different from the content in the Rosh Qbank. Nonetheless, the Rapid Review book series serves as a perfect companion to the Rosh Qbank. Learning and education is a dynamic process, one that is never ending. Once we commit to a life in medicine, we commit to a life of learning. The Rosh Rapid Review book series is best suited to serve as an adjunct to your medical education. It is not meant as a primary source, rather it should help you organize your thoughts and provide ancillary knowledge for a more robust education. We are counting on you to not just regurgitate facts, but rather, paraphrasing Dr. Elizabeth Blackburn, to learn how it all works. We are privileged to be in the role of caretaker and thus have a responsibility to our patients to be the most knowledgeable we can be. Use this book on your learning journey. At some point, you will grow out of it. But in the meantime, we hope the hard work by the dedicated Rosh Review team can play just a small role in helping you reach your goals and achieve your dreams.

*Developing Intelligent Agent Systems* Feb 10 2021 Build your own intelligent agent system... Intelligent agent technology is a tool of modern computer science that can be used to engineer complex computer programmes that behave rationally in dynamic and changing environments. Applications range from small programmes that intelligently search the Web buying and selling goods via electronic commerce, to autonomous space probes. This powerful technology is not widely used, however, as developing intelligent agent software requires high levels of training and skill. The authors of this book have developed and tested a methodology and tools for developing intelligent agent systems. With this methodology (Prometheus) developers can start agent-oriented designs and implementations easily from scratch saving valuable time and

resources. Developing Intelligent Agent Systems not only answers the questions “what are agents?” and “why are they useful?” but also the crucial question: “how do I design and build intelligent agent systems?” The book covers everything a practitioner needs to know to begin to effectively use this technology - including an introduction to the notion of agents, a description of the concepts involved, and a software engineering methodology. Read on for: a practical step-by-step introduction to designing and building intelligent agent systems. a full life-cycle methodology for developing intelligent agent systems covering specification, analysis, design and implementation of agents. PDT: Prometheus Design Tool – software support for the Prometheus design process. the example of an electronic bookstore to illustrate the design process throughout the book. Electronic resources including the Prometheus Design Tool (PDT), can be found at:

<http://www.cs.rmit.edu.au/agents/prometheus> This book is aimed at industrial software developers, software engineers and at advanced undergraduate students. It assumes knowledge of basic software engineering but does not require knowledge of Artificial Intelligence or of mathematics. Familiarity with Java will help in reading the examples in chapter 10.

London Mar 02 2020 Books are another creative item you can use to decorate your home for fun, modern and trendy in interior design. Their size, texture, and bulk make them perfect for decorating. This modern decorative book is specifically designed to be used as part of a book stack for decorating a room, a coffee table or a bookshelf. Combine 3-4 decorative books from our selection to make your own design. This decorative book features the word "London" printed on the spine and front cover of the book. Makes a stylish housewarming, wedding, graduation, or Christmas and Add Bookish Charm to Your Home with your own Book Decor Ideas. This book is 8.5" x 11" (letter size) Printed professionally on a soft matte and has 500 Blank pages. These decoration books are available for numerous cities, place names, destinations, as well as some inspirational messages. Visit our Amazon Author page for the full selection of available decoration books and design inspirations.

**Manufacturing Facilities Design and Material Handling** Oct 01 2022 This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

**The Fama Portfolio** Nov 21 2021 Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance."

**Lock and Key Record Book** Sep 07 2020 Do you keep your important keys haphazardly? Use this Lock and Key Record Book to record your treasured keys and locks in your house, office and even cars. Features: 105 pages 6" x 9" Record of name, registration number and address; Key no, date and time taken and by whom. Order this Lock and Key Record Book now!

**Kill the Company** Nov 02 2022 In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the

race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

Master the DSST Jul 18 2021 A guide to the DSST exams, which are taken to receive college credit, reviews verbal, clerical, math and memory skills; offers test-taking tips; and provides full-length practice tests for such exams as: Introduction to World Religions, Principles of Finance, Criminal Justice, Fundamentals of College Algebra and more. Original.

*Information Management* Oct 09 2020 Information Management: Energy Lacks Data to Support Its Information System Streamlining Effort

**Chart Patterns : Trading-Desk Booklet** Jun 28 2022 Chart Patterns booklet is designed to be your quick source for identifying chart patterns to help you trade more confidently. This book introduces & explains 60+ patterns that you are bound to see in Stocks, Mutual Funds, ETFs, Forex, and Options Trading. With this book, you will not need to flip through hundreds of pages to identify patterns. This book will improve the way you trade. Unlike other Technical Analysis books, this Chart pattern book will help you master Charting & Technical Analysis by making it simple enough to understand & use on a day to day basis.

**Tower in the Sky** Jul 26 2019 "An eighteen-year old girl sets out to meet a young man whom she had never met before and is swept away by a series of events that transformed her life in a way she could have never imagined."--Back cover.

Essays in Phenomenology Aug 07 2020 Fifteen years ago, Dorion Cairns concluded an article on phenomenology with a cautious appraisal of its influence in America. "Thus far," he wrote, "it continues to be an exotic." The situation today has changed: translations of the writings of Husserl, Heidegger, Marcel, Sartre, and Merleau-Ponty have appeared, and commentaries on these and related thinkers are not uncommon. Moreover, discussion of phenomenological problems is increasingly becoming part of the American (if not the British) philosophical scene. Phenomenology is in danger of domestication! Signs of its accommodation include a willingness to pay tribute to Husserl's Logical Investigations by those who find relatively little to interest them in his later work, a location of what are taken to be common themes and underlying convergences of emphasis in Continental phenomenology and Anglo-American philosophy of the more nearly Wittgensteinian and Austinian varieties, and a growing impatience (shared by some phenomenologists) with expositions, explications, and interpretations of Husserl's work at the expense of original applications of phenomenology. Most bluntly put, the attitude is: Don't talk about it; do it! It would seem that we have arrived at a point where introductions to phenomenology are of doubtful value, if not superfluous. The present collection of essays is based on different assumptions and points to an alternative conception of the role of both methodology and originality in phenomenological work

Ship Automation May 28 2022

**A SECRET SORROW** Apr 26 2022 After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend , and her soul makes a first step to healing.

**Introduction to Pharmaceuticals, Vol. I , 3e** Jun 24 2019

*For Better or For Worse? Collaborative Couples in the Sciences* Nov 09 2020 In this volume, a distinguished set of international scholars examine

the nature of collaboration between life partners in the sciences, with particular attention to the ways in which personal and professional dynamics can foster or inhibit scientific practice. Breaking from traditional gender analyses which focus on divisions of labor and the assignment of credit, the studies scrutinize collaboration as a variable process between partners living in the nineteenth and twentieth centuries who were married and divorced, heterosexual and homosexual, aristocratic and working-class and politically right and left. The contributors analyze cases shaped by their particular geographical locations, ranging from retreat settings like the English countryside and Woods Hole, Massachusetts, to university laboratories and urban centers in Berlin, Stockholm, Geneva and London. The volume demonstrates how the terms and meanings of collaboration, variably shaped by disciplinary imperatives, cultural mores, and the agency of the collaborators themselves, illuminate critical intellectual and institutional developments in the modern sciences.

Introduction to General Chemistry Jan 30 2020 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Ultrasound Teaching Manual** May 16 2021 Step by Step to Proficiency in Diagnostic Ultrasound This workbook is divided into lessons that guide you—like an instructor in an ultrasound course—systematically through the individual organ systems and body regions. Key features of the fourth edition: Special multiple-exposure photos demonstrate the dynamics of handling the transducer Triplet-image units vividly illustrate transducer positioning, the ultrasound image, and relevant anatomy Reference numbers on the accompanying diagrams help you to both actively develop your knowledge and to test it at any time. The legend located on the back cover flap is the key to the reference numbers that are used consistently in each diagram. Quiz images at the end of each chapter are the perfect tool for rigorous self-evaluation Physical fundamentals are presented in vibrant, illustrative diagrams Numerous practical tips and tricks make it easy to familiarize yourself with ultrasound A primer on ultrasound interpretation explains specialized terminology concisely and clearly Precise descriptions of algorithms for transducer positioning facilitate real-time examinations Videos (online access) showing relevant ultrasound anatomy, optimal transducer positioning, and the images you will see on the monitor during examination let you experience the content live—a perfect complement to the book that will greatly improve your retention of the material.

**Mathematics for Economics** Jul 06 2020 This text offers a presentation of the mathematics required to tackle problems in economic analysis. After a review of the fundamentals of sets, numbers, and functions, it covers limits and continuity, the calculus of functions of one variable, linear algebra, multivariate calculus, and dynamics.

*Marcus Off Duty* Apr 14 2021 Unwind with 150 relaxed, multicultural dishes from the award-winning celebrity chef and New York Times–bestselling author! Born in Ethiopia, raised in Sweden, and trained in European kitchens, Marcus Samuelsson is a world citizen turned American culinary icon—the youngest chef ever to receive three stars from the New York Times, a five-time James Beard Award recipient, a winner of Top Chef Masters, and a judge on Chopped. He was even chosen to cook President Obama’s first state dinner. In *Marcus Off-Duty*, the chef former president Bill Clinton says “has reinvigorated and reimagined what it means to be American” serves up the dishes he makes at his

Harlem home for his wife and friends. The recipes blend a rainbow of the flavors he has experienced in his travels: Ethiopian, Swedish, Mexican, Caribbean, Italian, and Southern soul. With these recipes, you too can enjoy his eclectic, casual food—including Dill-Spiced Salmon; Coconut-Lime Curried Chicken; Mac, Cheese, and Greens; Chocolate Pie Spiced with Indian Garam Masala; and for kids, Peanut Noodles with Slaw . . . and much more. “Highly recommended for adventurous and well-traveled home cooks, as well as fans of Susan Feniger’s Street Food.” —Library Journal

MGMT Adult Coloring Book Aug 26 2019 MGMT is an American pop and rock band formed in 2002 in Middletown, Connecticut. It was founded by multi-instrumentalists Andrew VanWyngarden and Ben Goldwasser.

**Sales Closing For Dummies** Apr 02 2020 Without the close, there is no sale. Pretty obvious, right? Yet, for many salespeople, closing is the most baffling and elusive part of the selling process. All too often, salespeople meet qualified clients and charm them with an eloquent presentation, only to see the sale mysteriously slip from between their fingers in the end. Which is sad when you consider all the hard work – the prospecting, preparation, planning, and practice – done for the sake of a moment of truth that never arrives. Fortunately, closing is an art that can be mastered, and now Sales Closing For Dummies shows you how. Packed with powerful principles that can help you become a top-producing salesperson, Sales Closing For Dummies is the ultimate guide to mastering that most mysterious part of the selling equation. Tom Hopkins, the legendary sales genius who, by age 30 was the nation’s leading real-estate trainer, demystifies closing and shows what it takes to be a champion closer, including how to: Lead a sale without being pushy Read the signs of an interested potential buyer Use questioning methods that close sales, time and again Help clients feel good about their buying decisions Keep your clients’ business and build their loyalty Build long-term relationships and watch your sales grow With the help of dozens of real-life examples from a wide cross section of industries, Tom shows why professional selling is about communication, not coercion. And he shares his considerable insight and experience on: Verbal and visual buying cues and how to recognize them Choosing the best location for closing Addressing concerns and creating a sense of urgency Time-tested tactics and strategies for ending customer procrastination, overcoming their fear, closing from a distance, and more The ten biggest closing mistakes and how to avoid them Add-on selling and other ways of getting your clients to help you to build your business Featuring Tom’s Hopkins’ trademark “Red Flag” key points and situation scripts, this fun, easy-to-understand guide arms you with the hands-on tools and techniques you’ll need to become a world-class closer.

**Circuits** Dec 23 2021

Flight Mechanics Modeling and Analysis May 04 2020 The design, development, analysis, and evaluation of new aircraft technologies such as fly by wire, unmanned aerial vehicles, and micro air vehicles, necessitate a better understanding of flight mechanics on the part of the aircraft-systems analyst. A text that provides unified coverage of aircraft flight mechanics and systems concept will go a long

**Dermatology in Emergency Care** Dec 11 2020 This guide to diagnosing and treating skin conditions commonly encountered by the non-specialist, incorporates colour photographs, concise descriptions, best treatment options and patient handout pages detailing the aetiology and treatment of the skin conditions described in the text.

Industrial Engineers Are Like Pineapples. Tough on the Outside Sweet on the Inside Jan 12 2021 Originelles Dot Grid Notizbuch im Format 6x9 Zoll (ca. A5). Die 110 Punkteraster Seiten bieten reichlich Platz für Notizen oder Tagebucheinträge! Dieses Notizheft hebt sich von anderen ab durch ein cooles Design auf dem Cover. Perfekt zum erstellen von Skizzen, zum sammeln von Ideen oder Planen von Events. Ein lustiger Terminplaner oder Terminkalender als Geschenk für Freunde und Familie zum Geburtstag, zu Weihnachten oder einfach zwischendurch.

Paris in Oakland Sep 19 2021 Every so often, a story of hope makes its way into a hurting World. Paris in Oakland is that story. Follow Katherine

and her mother, Eliza, as they navigate a medical nightmare seeking treatment for Katherine's Lyme disease. Never imagining an illness could be controversial, Katherine and her mother find themselves caught in the middle of a deeply divided medical community. This proves to be dangerous medicine, leaving young Katherine bedridden, in constant pain and ultimately finding for her life in the pediatric intensive care unit. From the pen of documentary filmmaker Eliza Hemenway, *Paris in Oakland* not only exposes the injustices of Lyme disease, but is also a story of faith and a compelling read for anyone suffering sickness or caught in circumstances beyond their control. If you are seeking inspiration, healing or hope, *Paris in Oakland* is the book for you.

The Book of L Jan 24 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

**Every Time a Bell Rings** Jun 16 2021 Once upon a time, he was everything to her, except for one thing: her future Christmas sparkles from every bough and window at the cozy Four Winds Ski Resort, where single mother Eden Kendall and her eight-year-old son are spending the holiday. A surprise marriage proposal from her boss's son wasn't on her Christmas list, but it's the perfect excuse to get away and weigh her options. She never imagined her son's ski instructor/Santa impersonator would be the gorgeous, charismatic dreamer she left behind years ago, the one who still owns a piece of her heart. Cole Hagan has never stopped loving Eden and he's spent the last eight years proving her wrong on every count about his potential. While he fights to save the resort that he helped to build by organizing a holiday concert, he decides it's about time that Eden puts aside her list-making pragmatism so that she and her skeptical son can experience the true magic of Christmas. Can a not-so-perfect angel help this unlikely pair get a second chance at happily ever after?
