His father is going crazy. For fifteen-year-old Jason, the only relief as he tries to hold things together is the group of imaginary friends who offer guidance as he tries not to draw attention to his father's deteriorating condition—or to himself. But between the traumas of his childhood and the squalor and stress he's dealing with right now, Jason's attempts to remain invisible may not be enough. To find a solution to this very real problem, he just might have to reach out to some very real people . . . In this compelling story by the author of *Dancing on the Edge*, Han Nolan “balances weighty subject matter with humor, offering an intelligent portrayal of a boy's slow release of burdens too heavy to carry alone” (Publishers Weekly).

human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

The Poetry of Zen Feb 27 2022 A Zen poem is nothing other than an expression of the

enlightened mind, a handful of simple words that disappear beneath the moment of insight to which it bears witness. Poetry has been an essential aid to Zen Buddhist practice from the dawn of Zen—and Zen has also had a profound influence on the secular poetry of the countries in which it has flourished. Here, two of America's most renowned poets and translators provide an overview of Zen poetry from China and Japan in all its rich variety, from the earliest days to the twentieth century. Included are works by Lao Tzu, Han Shan, Li Po, Dogen Kigen, Saigyō, Bashō, Chiao Jan, Yuan Mei, Ryōkan, and many others. Hamill and Seaton provide illuminating introductions to the Chinese and Japanese sections that set the poets and their work in historical and philosophical context. Short biographies of the poets are also included.

[Slave Stealers](#) Nov 14 2020 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before

escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The

Pollution, Property & Prices May 01 2022 'Dales pointed out that traditional economic and legal solutions to pollution and resource problems were never going to be satisfactory and that a "third way" was needed. Today, all environmental economists of my generation recognise the debt we owe to Dales's work, as one of the intellectual foundations for emissions trading that began in California in the 1970s and now extends across the world. It is a work of immense influence which deserves reprinting.' - David Pearce, University College London, UK In this classic book, originally published in 1968 by University of Toronto Press, John Dales proposed a new policy instrument for tackling pollution problems, namely 'markets in pollution rights'. Dales was one of the first economists to put

forward such a solution, and in subsequent years a system of emissions trading has evolved which is now a centrepiece in international discussions of how to address the problem of global climate change.

Staten Island Noir May 09 2020 "In a thrilling tilt-a-whirl of crime and drama . . . Smith has carefully chosen writers concerned with the true nature of the small suburban borough." —Electric Literature Staten Island may be New York City's forgotten borough, but it ranks high up on the list of places known for organized crime. If that wasn't enough to boost its noir reputation, there are its haunted mansion, hate crimes, and Cropsey urban legend. Dark deeds will always find a home on this side of the Verrazano bridge, and they give Staten Island a character all its own. Staten Island Noir includes editor Patricia Smith's Robert L. "It's not enough for noir to be dark. It's got to be bad-ass. Its words, its decaying and horrible beauty have got to hit you like a spiked heel dragged from your guts to your gullet. It's got to twist the hot knife of passion in that soft space right below your belly while pumping bullets into your heart. It's got to make you bleed . . . Staten Island Noir features some dusky and drop-dead gorgeous gems (emphasis on the dead) that do just that." —Grub Street Daily "[An] exceptionally strong anthology." —Publishers Weekly, starred review
Quaker Writings Mar 19 2021 An illuminating collection of work by members of the Religious Society of Friends. Covering nearly three centuries of religious development, this comprehensive anthology brings together

writings from prominent Friends that illustrate the development of Quakerism, show the nature of Quaker spiritual life, discuss Quaker contributions to European and American civilization, and introduce the diverse community of Friends, some of whom are little remembered even among Quakers today. It gives a balanced overview of Quaker history, spanning the globe from its origins to missionary work, and explores daily life, beliefs, perspectives, movements within the community, and activism throughout the world. It is an exceptional contribution to contemporary understanding of religious thought.
